OFFICE ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312

IN THE CLAIMS:

Claim 1, line 6, after "a light reflector" inserted --wherein the porous silicon layer formed comprises porous silicon parts and columnar conductive parts, said columnar conductive parts forming conductive connections between the substrate and a first region of a semiconductive region--

Claim 7 has been canceled.

Claim 8, line 1, replaced "recited in claim 7" with --recited in claim 1--

2. Authorization for this examiner's amendment was given in a telephone interview with Richard E. Campbell on June 22, 2004.

3. After the conversation, the examiner has found two minor informalities such as:

Page 1, line 11, after "April 9, 2001" inserted --and issued as US Patent 6,683,367, --

Page 12 line 31, replaced "is this way" with --in this way--

Page 14 line 13, replaced "a epi-on-porous" with --an epi-on-porous--

Allowable Subject Matter

4. Claims 1-6 and 8-23 are allowed because US 6,194,245 to Tayanaka does not teach, *inter alia*, that a porous silicon layer formed comprises porous silicon parts and columnar conductive parts, and prior to the formation of a porous silicon layer a patterned mask layer is formed on a substrate to thereby define first and second areas.
